

Name: Muhammad Ashar Zia

Roll No: FA24-BCS-163

Statement: Build a single-page personal CV/résumé as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS. This is where you prove you actually know the raw building blocks before anything is allowed to hide them from you.

<div id="summary">

<h2>ABOUT ME</h2>

<p>Computer Science undergraduate at COMSATS University Islamabad with hands-on experience in Linux system administration, Bash scripting, Git/GitHub, and Docker containerization. Built and deployed full-stack applications and automation tooling, with a strong interest in cloud infrastructure, CI/CD, and DevOps practices. Seeking a DevOps Internship to apply and grow these skills in a production environment.</p>

</div>

<div id="skills">

<h2>TECHNICAL SKILLS</h2>

Operating Systems: Linux (Ubuntu/WSL), Windows

DevOps & Tools: Docker, Git, GitHub, Bash Scripting, Linux Administration

Programming: Java, C++, Bash

Computer Science Foundations: Data Structures, OOP, Database Systems, Computer Networks

Other Tools: VS Code, Maven, Eclipse WindowBuilder

</div>

<div id="projects">

<h2>PROJECTS</h2>

<h3>Linux Administration Toolkit</h3>

<p><i>2026</i></p>

Built a menu-driven Bash application automating Linux admin tasks: system info, CPU/memory monitoring, disk usage analysis, process inspection, SSH info, log analysis, and report generation.

Applied Linux permissions, shell scripting (functions, loops), and Git/GitHub for version control.

Vibe Coded Web Application — E-commerce Platform</h3>

<p><i>Jan 2026 – Jun 2026</i></p>

Designed, built, and deployed a full-stack CNC machinery e-commerce site (habibandsons.com) end-to-end, including database integration and production deployment.

Optimized performance and responsiveness; managed the full deployment lifecycle to a live environment.

Gym Management System (OOP Project)</h3>

<p><i>Sep 2025 – Dec 2025</i></p>

Developed a Java desktop app applying OOP principles (encapsulation, inheritance, polymorphism, abstraction) with a GUI built in Eclipse WindowBuilder.

Implemented CRUD-style record management with a modular, class-based architecture.
